About Us

Lithe Solutions Distributor Ltd (Lithe SD) is a Solutions Value-Added Distributor operating in the IOC, Africa, and Middle East regions and a proud member of the Lithe Group of Companies.

We go beyond traditional distribution. We partner with System Integrators throughout the entire sales, design, implementation, and support lifecycle — ensuring successful, measurable customer outcomes.

Our expertise spans enterprise infrastructure, private and hybrid cloud, cybersecurity, infrastructure monitoring and observability, and professional services. We understand that every System Integrator has unique strengths, and we tailor our engagement to complement and amplify yours.

With deep regional knowledge and a growing network of over 100 channel partners, LitheSD has become the trusted distributor of choice for businesses and System Integrators seeking reliable, innovative technology solutions.

Our Values

We are committed to delivering cutting-edge technology solutions that empower businesses to optimise their operations and achieve their strategic objectives. With a focus on integrity, responsibility, excellence, and empowerment, LitheSD has become a trusted partner in the technology industry.

INTEGRITY

We prioritize trust, ethical standards, and transparent relationships in all interactions and decisions.

RESPONSIBILITY

We take ownership of our clients' needs, environmental impact, and employee growth with unwavering commitment.

EXCELLENCE

We strive for unparalleled quality, setting industry standards and delivering optimal outcomes for clients.

EMPOWERMENT

We foster personal and professional growth, providing opportunities for our team to excel and lead.

Our Vision

We aim to revolutionise the IT solutions distribution landscape by delivering unmatched value to our partners and end-customers. We strive to be the catalyst for digital transformation across the IOC, Africa, and Middle East regions — empowering System Integrators and businesses to thrive in the dynamic world of technology.

Our Mission

To be the leading provider of innovative IT solutions, empowering System Integrators and businesses in the IOC, Africa, and Middle East regions to achieve their strategic objectives through our tailored approach, comprehensive support, and unwavering commitment to excellence.

Our Process

A streamlined, partner-centric process ensuring successful delivery of IT solutions — from initial consultation and solution design through to implementation, training, and ongoing support.

Understanding the Channel Partner world

As a Channel Partner, you are likely navigating

- Pressure to expand your solution portfolio without proportionally scaling headcount
- Difficulty accessing the right technologies at competitive margins
- Customers demanding end-to-end project accountability and measurable outcomes
- The need to build recurring managed services revenues alongside project work
- Complex multi-vendor implementations with tight delivery deadlines
- Evolving Cybersecurity threats that your customers need solved now

THAT IS EXACTLY WHERE LITHESD COMES IN

Why Partner with LitheSD?

We help our partners:

- ✓ Expand their technology portfolio and add value to existing offerings
- ✓ Access new, innovative technologies and specialised technical expertise
- ✓ Accelerate project delivery with deployment services and expert support
- ✓ Increase professional services revenue through high-margin engagements
- ✓ Develop managed services offerings for predictable, recurring revenue
- ✓ Improve customer retention through value-added, outcome-driven solutions

The LitheSD Difference

Traditional Distributor	LITHESD
Product fulfilment only	Full lifecycle support: Pre-Sales → Implementation → Post-Sales
Transactional, order-driven relationships	Strategic, long-term partnership model
Minimal post-sale technical support	Dedicated technical and managed services support
One-size-fits-all product approach	Tailored to your SI's strengths and customer base
Limited in-house technical depth	Certified technical experts across all solution pillars

We differentiate ourselves from traditional distributors by working closely with our partners throughout the full engagement lifecycle from initial sales conversation through to long-term customer success.

How We Support You

Pre-Sales

- Technical consultation and needs analysis
- Solution architecture and Bill of Materials (BoM) development
- Vendor engagement and proof-of-concept support
- Competitive positioning and proposal support

Sales

- Competitive and flexible commercial pricing
- Deal registration and margin protection
- Commercial structuring and financing options

Implementation

- Deployment and integration support
- Quality assurance and technical testing
- Technical escalation and certified expert access

Post-Sales

- Ongoing Level 2/3 technical support
- Training and knowledge transfer
- Managed services enablement and practice development
- Product lifecycle management and roadmap updates

We are with you from first conversations to long term customer success:
